OBJECTIVE

A strong Front End developer excited to support one of the dev teams and join the company's collaborative environment where teamwork and hard work are paramount.

EDUCATION

UDACITY   **Multiple Locations/Online School, CA**
Front-End Web Developer Nanodegree Program, Jun 2017

BAKER ONLINE COLLEGE   **Flint, MI**
Associates Degree of Applied Sciences, Mar 2015
Member of The Nation Society of Collegiate Scholars

SKILLS

HTML
CSS
JavaScript
Angular JS (1.3-1.5)
Creative Writing (I have written a 70,000 word novel)
Experienced Collaborator (I have participated and excelled in many group projects)
Focus (I am determined to continue to improve my skill set in CSS and Front-End Development)

PROJECTS

- **Neighborhood Food Map** – Built with HTML, CSS, JavaScript, Google Maps API, and Wikipedia API.
Description: Built an app that allows you to search any area for unique restaurants.
Link: http://jfewke01.com/Udacity/NeighborhoodMapProject/index.html
- **Creative Writing Website** – Built with HTML and CSS.
Description: Created my first website to showcase my creative writing talent.
Link: http://www.jfewke01.com/Jonny's%20web%20site/index.html
- **Interest Calculator** – Built with HTML, CSS, and JavaScript.
Description: Created an app that allows a user to simply enter their principal balance, a monthly payment, and an interest rate, and this handy tool will calculate how much interest they will need to pay over the course of their loan.

WORK EXPERIENCE

Mountainland Applied Technology College   **Lehi, UT**
Program Coordinator   *Mar 2015 – Jan 2017*
- Created a rubric that helped to turn 55 beginners into job-ready Front End CSS Web Developers.
- Answered thousands of questions from students during lab time which were related to Web Development.
- Served as the main faculty resource for every student who needed help and motivation with their projects.
- Organized and coordinated the efforts of over a dozen faculty members involved in the program.
