SKILLS

Agile Methodology
Software Testing
HTML
CSS
JavaScript
Angular JS (1.3-1.5)
Experienced Collaborator (I have participated and excelled in many technical group projects)
Focus (I am determined to continue to improve my skill set in Manual QA and expand into Automated QA)

PROJECTS

- **iHeartRadio App Testing** – Functional Testing.

Description: Performed dozens of tests exactly as specified by provided test cases. Discovered, documented, and submitted ten bug reports complete with screenshots, videos, and console log messages.

- **Neighborhood Food Map** – Built with HTML, CSS, JavaScript, Google Maps API, and Wikipedia API.

Description: Built an app that allows you to search any area for unique restaurants.
